Atherton Material Handling (AMH). Station Road, Common Lane, Ranskill, Retford, Nottinghamshire, United Kingdom, DN22 8LW

Centrally located in the U.K, Atherton Material Handling in Nottinghamshire are conveniently located and are close to motorway networks. We have a large, well equipped workshop with a skilled workforce. With over 35 years experience we are one of Britain's leading providers of Material Handling equipment, specifically with the design, manufacture and installation of Mechanical Handling Conveyor Systems and associated equipment such as Hoppers, Feeders and Screw Conveyors etc.

We can supply stationary or mobile conveyors in either all new or fully reconditioned units from our large stocks held at our Ranskill quarters, Retford in Nottinghamshire.

Design and Installation

Our design team have many years experience in all aspects of Design and Materials Handling Installations including Conveyors, Gantries, Hoppers, Silos, Buildings and structures for the Quarrying, Mining, Sea dredged, Coal, Steel and Recycling Industries.

With the latest Computer Aided Design Technology we are able to quickly produce accurate layouts and detailed drawings. These drawings can then be emailed around the world in a matter of seconds, affording clients the opportunity to review all the stages of the design process from the preliminary layouts to the final detailed drawings. Full Design and Installation services and facilities are available with all the appropriate safety and insurance policies. Our workforce are fully qualified and work to CDM Regulations.

"Atherton Materials Handling Ltd philosophy is that working as a partnership with the customer throughout the project from the original idea, the design, the manufacture, installation and commissioning with transparency is the way to provide success for both parties."
