

ATHERTON MATERIAL  
HANDLING LTD

# RECYCLING & WASTE CONVEYING SYSTEMS

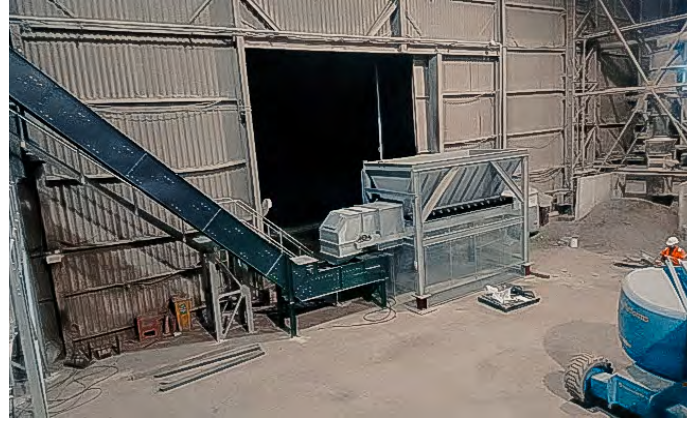

GLASS, METALS, PLASTIC, BIO MASS & WASTE

We design, manufacture and install mechanical handling conveyor systems and associated equipment for the recycling & waste conveying systems & environmental management solutions..

[www.amhltd.co.uk](http://www.amhltd.co.uk)

## 01 RECYCLING & WASTE CONVEYING SYSTEMS

We design, manufacture and install recycling and associated equipment such as picking Lines, Bivtec Screens, overband magnets, ESC units, vibrating feeders, balers, crushers, sorting conveyors, processing conveyors and Full turnkey projects. We are proud & honoured to be working in partnership with two of the most globally renowned products; Bivtec Screens ( RH Recycling LTD ) & Titech finder machines ( Tomora Sorting Solutions )

## 02 TOMRA & SCREENING EQUIPMENT

We Design, Manufacture and install Mechanical Handling Conveyor Systems and associated equipment for the recycling & quarrying sectors. Such as crushers, screens, finding equipment etc.

## 03 HOPPERS / HIGH WALL CONVEYORS

We design, manufacture and install various Hoppers to suit specific requirements. Such as Materials Type, Capacity, Weather Conditions, Flow rates and Durability. High Wall Conveyors are used alongside to deliver material at the chosen rate.

### HOPPERS - FEEDERS - TITECH - BALERS - BIVTEC - ESC UNITS

## 04 ADVISORY SERVICES & MAINTENANCE

We provide on-site repairs / support services to help our clients maintain reliable and efficient operations. Alongside all of this we provide a consultancy service delivering planning, design and installation of your conveyor system. Get in touch with us today!
